Imperial Land

Welcome to Imperial Land!

The tourist route that you will live in the next days is an immersion inside Imperial Land's beauties and companies.

"Imperial Land" is the old story of an important part of International Tourism. Destination of people from all sides of Italy; destination of Popes and Kings, this area, situated in the South of Rome, has conquered many governors of different times.

For the Romans, it was a favoured place for holidays and a relaxation zone among natural beauties, scents and special flavours. During the Bourbon period, it was a strategic area and an important gate to enter in the Kingdom of Two Sicilies.

Also the "Spirituality" has chosen this place for its magic and its peacefulness. "Imperial Land" was also the "cradle" of the first new towns and of "Città di Fondazione". It has conceived the "United Europe" with Altiero Spinelli and it creates Tourism giving priority to cooperation of people.

Today, "Imperial Land" is chosen for its authentic history and for its stories which all of you will can write crossing its touristic products.

Welcome to Imperial Land.
